DETAILED ACTION

1. This is the Final Office Action from the examiner in charge of this application in response to applicant's amendment dated 10/18/2006.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the limitation in claim 1 of "wherein a first wall of the cabinet and a second wall of the cabinet are received within the cavity" (please note that since the cavity is defined by the top member, the inner member and the outer wall, the first and second walls of the cabinet have to be in alignment, and this is not shown in the drawings) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Art Unit: 3637

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claim 32 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 29 already recited the protective device is formed of a polymeric material.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-2, 4, 6-14, 26, 28, 31, 33-34, 36, and 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, lines 15-16, the limitation of "wherein a first wall of the cabinet and a second wall of the cabinet are received within the cavity" is vague, thus indefinite for failing to provide adequate structural limitations for the recitations of the first and second wall of the cabinet are received within the cavity, since the cavity is defined by the top member, the inner member and the outer wall. Claim 26, (1) line 2, since the object is not positively recited in claim 16, the recitation in claim 26, by referring back to said object in claim 16, of "in combination with the object" is indefinite, (2) line 3, the recitation of "the second

Art Unit: 3637

wall” renders the claim indefinite, since a first wall has not been positively defined.

Claim 28, since lines 1-2 already recited “A cabinet including a protective device, ...comprising”, the subsequent recitation on line 5 of “the protective device, wherein the protective device comprises” renders the claim indefinite for claiming that the cabinet including a protective, and then the cabinet comprising the protective define, thus failing to clearly define the metes and bounds of the claimed invention. Claim 33, line 15, “that forms first opening” is improper in context, thus indefinite. Claim 38 is indefinite for depending on cancelled claim 35; for the purpose of this examination, the examiner is considering that claim 38 depends on claim 33

Allowable Subject Matter

6. Claims 16, 18-23, 25, 29, and 37 are allowed.
7. Claims 1, 28, 33 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. Claims 2, 4, 6-12, 26, 31, 34, 36, and 38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
